MATERIAL SAFETY DATA SHEET

Ferrous Sulfate (Copperas)

SECTION 1 . Product and Company Idenfication

Product Name and Synonym: Ferrous Sulfate (Copperas)

Product Code: F3032

Material Uses:

Manufacturer: Science Stuff

1104 Newport Ave

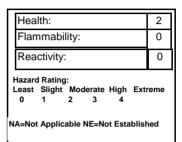

Austin, TX 78753

(512) 837-6020

Entry Date : 6/4/2013
Print Date: 6/4/2013

24 Hour Emergency Assistance : Chemtrec 800-424-9300

Canutec 613-996-6666

SECTION 2 HAZARD IDENTIFICATION

Harmful if swallowed. May cause irritation. Avoid breathing vapors, or dusts. Use with adequate ventilation. Avoid contact with eyes, skin, and clothes. Wash thoroughly after handling. Keep container closed.

Physical state: Solid. [Granular solid. Crystals.]

OSHA/HCS status: This material is considered hazardous by the OSHA Hazard

Communication Standard (29 CFR 1910.1200).

Emergency Overveiw

WARNING

HARMFUL IF SWALLOWED

CAUSES EYE AND SKIN IRRITATION

MAY CAUSE RESPIRATORY TRACT IRRITATION

MAY CAUSE DAMAGE TO THE THE FOLLOWING ORGANS: LIVER.

MAY BE HARMFUL IF INHALED.

Do not ingest.

Avoid contact with eyes, skin or clothing.

Keep container tightly closed and sealed until ready for use. Use only with adequate ventilation. Wash thoroughly after handling.

Routes of entry:

Inhalation. Ingestion.

Potential acute health effects:

Eyes: Irritating to eyes Skin: irritating to skin

Inhalation: May cause respiratory irritaion

Ingestion: Toxic if swallowed.

Carcinogenicity: No known significant effects or critical hazards. Mutagenicity: No known significant effects or critical hazards.

Teratogenicity/ Reproductive toxicity: No known significant effects or critical hazards.

Developmental effects: No known significant effects or critical hazards.

Fertility effects: No known significant effects or critical hazards. Target organs: May cause damage to the following organs:

liver

Medical conditions aggravated by over-exposure:

Pre-existing disorders involving any target organs mentioned in this MSDS as being at risk

Ferrous Sulfate (Copperas)

may be aggravated by over-exposure to this product

SECTION 3 MIXTURE COMPONENTS

SARA 313 Component CAS Number Comp. Dimension Exposure Limits

Ferrous Sulfate Heptahydrate CAS# 7782-63- 100 % W/W TXDS: orl-rat

Ferrous Sulfate Heptanydrate CAS# 7/82-63- 100 % W/W TXDS: orl-ra
0 LD•□: 1480

mg/mf

SECTION 4 FIRST AID MEASURES

Harmful if swallowed. May cause irritation. Avoid breathing vapors, or dusts. Use with adequate ventilation. Avoid contact with eyes, skin, and clothes. Wash thoroughly after handling. Keep container closed.

FIRST AID: SKIN: Remove contaminated clothing. Wash exposed area with soap and water. If symptoms persist, seek medical attention

EYES: Wash eyes with plenty of water for at least 15 minutes, lifting lids occasionally. Seek Medical Aid. INHALATION: Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen

INGESTION: If swallowed, induce vomiting immediately after giving two glasses of water. Never give anything by mouth to an unconcious person.

SECTION 5 FIRE FIGHTING MEASURES

Fire Extinguisher Type: Any means suitable for extinguishing

surrounding fire

Fire / Explosion Hazards:

Fire Fighting Procedure: Wear self-contained breathing apparatus and protective clothing

to prevent contact with skin and clothing.

SECTION 6 ACCIDENTAL RELEASE MEASURES

Sweep up and place in suitable (fiberboard) containers for reclamation or later disposal.

Personal precautions: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personal from entering. Do not touch or walk through spilled material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Provide adequate ventilation. Were appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

Environmental precautions: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

Methods for cleaning up: Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Vacuum or sweep up material and place in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor. Note: see section 1 for emergency contact information and section 13 for waste disposal.

SECTION 7 HANDLING AND STORAGE

Stored materials should be placed in a dry and reasonably temperatured area, preferably below 75 Deg F.

SECTION 8 EXPOSURE CONTROLS/PERSONAL PROTECTION

Respiratory Protection: Dust mask

Ferrous Sulfate (Copperas)								
Ventilation								
	Local Exhaust 🕝							
Protective Gloves:	Mechanical							
	Wear appropriate gloves to prevent skin exposure							
Eye Protection:	Safety goggles							
Other Protective Equipment:	Wear appropriate clothing to prevent skin exposure							
	Engineering measurers: Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits. Hygiene measures: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking, and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location. Personal Protection Eyes: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. Recommended: safety glasses with side-shields, Skin: Personal protective equipment for the body should be selected based on the task being performed and risks involved and should be approved by specialist before handling this product. Body recommended: lab coat Respiratory: Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. Hands: Chemical-resistant, impervious gloves complying with an approved							
	standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Recommended: nitrile rubber Environmental exposure controls: Emissions from ventilation or work							
	process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.							
SECTION 9 PHYSICAL AND CHEMICAL PROPERTIES								
Melting Point:	Information not available	Percent Volatile by Volume:	0					
Boiling Point:	Information not available	Evaporation Rate	0					
Vapor Pressure:	Information not available	Evaporation Standard						
Vapor Density:	Information not available	Auto Ignition Temp	Not applicable					

Ferrous Sulfate (Copperas)

Solubility in Water: 57 gms in 100 Lower Flamm, Limit in Air Not applicable

mls of water

Acidic/sour

Light grey, Appearance /Odors: Upper Flamm. Limit in Air Not applicable

Flash Point: None

Specific Gravity: 1.899 @ 14

Deg C

SECTION 10 STABILITY AND REACTIVITY INFORMATION

Stability: Stable

Conditions to Avoid: Exremely high temperatures

Materials to Avoid: Oxidizing agents and Alkalies

Hazardous Decomposition

Products:

Products of sulfur oxides

Hazardous polymerization: Will Not Occur

Conditions to Avoid: None known

SECTION 11 Toxicological Information

Iron(II) Sulfate Heptahydrate

LD50 Oral 1520 mg/kg Mouse LDLo Oral Rat 1389 mg/kg LDLo Oral Rabbit 2778 mg/kg LDLo Rectal Rat 697 mg/kg

Carcinogenic effects: No known significant effects or critical hazards Mutagenic effects: No known significant effects or critical hazards

Teratogenicity/Reproductive toxicity: No known significant effects or critical hazards

SECTION 12 Ecological Information

Aquatic toxicity

Product/ ingredient name

Iron (II) Sulfate Heptahydrate

Acute EC50 7.1 mg/L Daphnia 48 hours Daphnia - Water flea -48 hours Acute EC50 7.1 ppm

Fresh water

Daphnia pulex - <24 hr

Acute LC50 51.2 mg/L 96 hours Fish 96 hours

Acute LC50 51.2 ppm Fresh water

Fish - Bluegill - Lepomis macrochirus

Acute LC50 20.8 mg/L Fish 96 hours Acute LC50 20.8 ppm Fish - Rainbow trout, 96 hours

Fresh water Donaldson trout -

Oncorhynchus mykiss

Environmental effects: No known significant effects or critical hazards. Other adverse effects: No known significant effects or critical hazards.

SECTION 13 Disposal Considerations

The information presented only applies to the material as supplied. The identification based on characteristic(s) or listing may not apply if the material has been used or otherwise contaminated. It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the toxicity and physical properties of the material generated to determine the proper waste identification and disposal methods in compliance with applicable regulations. Disposal should be in accordance with applicable regional, national and local laws and regulations.

SECTION 14 Transport Information

Ferrous Sulfate (Copperas)

DOT Classification:

Not Regulated

DOT Regulations may change from time to time. Please consult the most recent D.O.T. regulations.

SECTION 15

Regulatory Information

United States HCS Classification: Toxic material Irritating material Target organ effects

U.S. Federal regulations:

United States inventory (TSCA 8b): listed

TSCA (Toxic Substance Control Act): This product is listed on the TSCA Inventory. SARA 302/304/311/312 extremely hazardous substances: No products were found. SARA 302/304 emergency planning and notifications: No products were found. SARA 302/304/311/312 hazardous chemicals: Iron (II) Sulfate Heptahydrate SARA 311/312 MSDS distribution- Chemical inventory- hazard identification: Iron (II) Sulfate

Heptahydrate

Immediate (acute) health hazard, Delayed (chronic) health hazard

Clean Water Act (CWA) 307: No products were found. Clean Water Act (CWA) 311: No products were found.

Clean Air Act (CAA) 112 accidental release prevention: No products were found. Clean Air Act (CAA) 112 regulated flammable substance: No products were found. Clean Air Act (CAA) 112 regulated toxic substance: No products were found.

DEA List I Chemicals: not listed (Precursor Chemicals) DEA List II Chemicals: not listed

(essential Chemicals)

Massachusetts Substance: This material is listed. New Jersey Hazardous Substances: This material is listed. Pennsylvania RTK Hazardous Substances: This material is listed. Canada

WHMIS (Canada)

Class D-2B: Material causing other toxic effects (Toxic)

Canadian lists: CEPA Toxic Substance: This material is not listed.

Canadian ARET: This material is not listed. Canadian NPRI: This material is not listed.

Alberta Designated Substances: This material is not listed. Ontario Designated Substances: This material is not listed. Quebec Designated Substances: This material is not listed.

CEPA DSL/ CEPA NDSL: CEPA DSL:

This material is listed or exempted.

This product has been classified in accordance with the hazard criteria of the CPR and the MSDS contains all the information required by the CPR.
